## PREPARE FOR 2012

This workshop will provide a meditative journey to expand your awareness beyond the universe, and from there look into the universe, or beyond, to discover when and where you originated; your history throughout time and your future. The journey will be with Hayehwatha, through the Medium Andrée. Prepare yourself for the dramatic shifts that will occur in 2012. This is an effective way to successfully usher in new changes for you and all of life upon the earth.
